Safety Statement

“Safety is the priority” and no compromise with safety, that is our company policy.

Company safety department has developed and in-house “Safety Manual” which describes the essential safety practices to be followed by every company individual.

Company has its own safety and loss prevention department, which is controlled by the Safety officer of the company. It is his direct responsibility to develop new safety standards and implementation of safety practices among the company people.

Implementation of safety practices is also the responsibility of every individual working in the company. Following the good safety practices creates safe working environments.

Delegated Safety Engineers will conduct “Safety refreshing seminar” on regular intervals. Hazard identification will be prepared, reviewed and approved prior to commencing any activity. The copy will be distributed among the craft people who are involved that works.

It is mandatory that all the employees working in the company must be attend a “Safety Awareness” which conducted by the company safety department.

Safety inspection will be conducted for every equipment and machinery, and it can be put in service only after obtaining the approval.

Quality Statement

Inder Interior LLC Quality control policy is to deliver products and services confirming to Quality plans and contract requirements. To meet this objective a quality control plan has been developed by the company expertise in accordance with International and local quality standards.

The quality plan outlines the organizational policies, which are established to ensure that all industrial services and construction activities are carried out under controlled conditions. Industrial services shall be in accordance with the specifications, and related International industrial standards.

This quality assurance standard establishes the basis for the quality assurance plans implemented within Inder Interior organization. It states the requirements, assigns the responsibilities, and prescribes the principles governing activities that are the key to quality. Compliance with this standard is mandatory and applies to all company projects.

It is Inder Interior LLC Policy and intention of this company to provide its customers with products which conform to customer requirements and are delivered on time.

HSE POLICY

The main purpose of the policy is to,

- Increase personal safety,
- Systematically monitor the working environment to reduce damage to health.
- Systematic treatment of loss of time and near miss accident to prevent recurrence.
- Reduce the accident frequency within the work site.

SAFE Practice of Work

Prior to any operator starting work he will be made fully aware of all risk involved in carrying out the operation and how to minimize the associated hazards. To manage the control of hazards and risks it is essential to follows some fundamental principles.

- If possible, avoid the risk completely, by using varied materials or methods if they are not essential to the activity.
- Wherever possible, adapt work to individual, especially in choice of workplace, equipment, and methods of working with the aim of reducing monotony that contributes to potential hazards.
- Take advantages of technological progress that often makes work safer and more efficient.
- An active and safety culture must exist and be assured so that the principle of risk prevention is part of everyone's attitude at every level in every activity.
- Incorporate preventive measures in a coherent policy to progressively reduce or eliminate risks.

1. PPE for Works:

- ☐ Helmet
- ☐ Coverall
- ☐ Goggles for eye protection
- ☐ Gloves
- ☐ Safety Shoes.
- ☐ High Visibility Jackets

2. PPE for operator within the work area:

- ☐ Dust Cap or mask to prevent inhaling dust.
- ☐ Goggles for eye protection
- ☐ Safety shoes
- ☐ Workers should not eat/drink within the work area. They should wash their hands and face before eating food or drinking water.
